Contents of *Ecological Modelling*, Vol. 66

VOL. 66 NOS. 1/2 MARCH 1993

Announcement from the Publisher v

Network trophic dynamics: the modes of energy utilization in ecosystems
M. Higashi (Otsu, Japan), B.C. Patten (Athens, GA, USA) and T.P. Burns (Oak Ridge, TN, USA) 1

Network trophic dynamics: the tempo of energy movement and availability in ecosystems
M. Higashi (Otsu, Japan), T.P. Burns (Oak Ridge, TN, USA) and B.C. Patten (Athens, GA, USA) 43

Quantification of species as functional units within an ecological network
C. Pahl-Wostl (Dübendorf, Switzerland) and R.E. Ulanowicz (Solomons, MD, USA) 65

The hierarchical organization of the aquatic ecosystem: an outline how reductionism and holism may be reconciled
C. Pahl-Wostl (Dübendorf, Switzerland) 81

A stochastic model for ordered categorical time series. Application to planktonic abundance data
F. Ménard, S. Dallot and G. Thomas (Paris, Villefranche-sur-Mer, France) 101

Dynamic models for ammonium inhibition of nitrate uptake by phytoplankton
R.A. Parker (Pullman, WA, USA) 113

Gypsy moth (Lepidoptera: Lymantriidae) egg development: a simulation analysis of laboratory and field data
A.J. Sawyer, M.J. Tauber, C.A. Tauber and J.R. Ruberson (Ithaca, NY, USA) ... 121

VOL. 66 NOS. 3/4 APRIL 1993

Analysis of the eutrophic trend in a deep lake
F. Gallerano, R. Ricci and P. Viotti (Rome, Italy) 157

Site-specific determination of kinetic coefficients for modeling algal growth
M.L. Storey (Syracuse, NY, USA), M.T. Auer, A.K. Barth (Houghton, MI, USA) and J.M. Graham (Madison, WI, USA) 181

Non homogeneous Markovian models in ecological modelling: A study of zoobenthos dynamics in Thermaikos Gulf, Greece
D.P. Patoucheas and G. Stamou (Thassaloniki, Greece) 197

Analytical solution for the model of soil radionuclide migration with fixation-leaching reaction
A.A. Kasimovsky (Moscow, Russian Federation) 217

Analytical solution for the model of soil radionuclide migration with fixation-leaching reaction
A.A. Kasimovsky (Moscow, Russian Federation) 217

Simulation of the carbon dynamics of a Florida slash pine plantation
W.P. Cropper, Jr. and H.L. Gholz (Gainesville, FL, USA) 231
Modelling community dynamics of a *Quercus coccifera* L. garrigue in relation to fire using Markov chains
F. Rego (Lisboa, Portugal), J. Pereira (Setubal, Portugal) and L. Trabaud (Montpellier, France) 251
A lattice-structured model for beech forest dynamics: the effect of understory dwarf bamboo
K. Kawano and Y. Iwasa (Fukuoka, Japan) 261
Statistical model to study the relationship between the wheat variety composition and the race composition of wheat stripe rust
P. Sun and S. Zeng (Beijing, People's Republic of China) 277
Inclusive Kullback index – a macroscopic measure in ecological systems
I. Aoki (Osaka, Japan) 289

Short Communication
Relationship between the logistic equation and the Lotka–Volterra models
J.M. Blanco (Málaga, Spain) 301
